## 5. Finally Deploy it to display the output

The screenshot displays the Remix Ethereum IDE interface. On the left, the 'SOLIDITY COMPILER' panel shows version '0.8.18+commit.87f61d96'. The main editor displays a Solidity contract named 'anjanadevim' with a 'sayHello()' function that returns the string 'zone 8'. Below the editor, the 'CONTRACT' panel shows the contract name 'anjanadevim (m.anjanadevim.sol)'. The 'Compiler' panel shows the 'Compile and Run script' button. The 'ABI' and 'Bytecode' tabs are visible. The bottom panel shows the transaction log with a successful deployment of the 'anjanadevim' contract. The status bar at the bottom indicates the system temperature is 34°C and the date is 09-10-2023.
